PROFESSIONAL PROFILE

Senior IVD professional with 25+ years of experience spanning both the laboratory and the commercial/supplier side of the diagnostics industry. Currently leading operations, sales, and an 18-person team at a veterinary diagnostics laboratory (Laboklin Group). Proven sales leader with a consistent track record of exceeding targets (2xTOP Performance Club winner at 110%+ of target at Horiba ABX). Experienced in building and restructuring sales organisations, customer segmentation, pricing strategy, key account management, and business development across the Polish IVD market. Strong product and application background in clinical chemistry, hematology, hemostasis, and immunochemistry, with international exposure across the NEEU region (7 countries). MBA-qualified with P&L responsibility and hands-on experience in budget planning, team management, and operational leadership. Native Polish; professional working proficiency in English; intermediate French.

CORE COMPETENCIES

>> Sales Team Leadership & Development	>> Business Development & Growth Strategy	>> Key Account & KOL Management
>> P&L / Budget Management	>> Customer Segmentation & Pricing	>> Distributor & Channel Management
>> Product & Application Expertise	>> Market Analysis & Competitive Strategy	>> Tender & Public Procurement

PROFESSIONAL EXPERIENCE

Chief Operating Officer | Laboklin Polska Sp. z o.o. (Laboklin Group, Germany) | 2024 – Present

- Lead full P&L responsibility for a veterinary diagnostics laboratory (Laboklin Group), managing an 18-person multidisciplinary team across laboratory operations, sales, and client services.
- Took over and restructured the sales department: implemented customer segmentation, renegotiated discount policies for competitor-clients, and built a structured commercial pipeline, projecting significant annual loss reduction.
- Designed and launched a tiered partnership programme targeting smaller outsourcing laboratories, creating new revenue streams and expanding market reach.
- Own annual budget planning and financial forecasting, including cost analysis, revenue projections, and profitability optimisation across laboratory and commercial operations.
- Led a major platform transition, managing client communication strategy, internal staff training (~30 employees), and business continuity throughout the changeover.
- Developed a digital transformation roadmap (mobile app, courier integration, web portal) with projected ROI analysis to recapture market share lost to digitally advanced competitors.

Clinical Laboratory Study Manager | GSK, Warsaw | Feb 2024 – May 2024

- Managed study-related clinical and operational processes in hospital environments.
- Supervised sample flow, team workflows, and documentation compliance for multi-site clinical studies.

Clinical Application Specialist IVD – Northern & Eastern Europe (NEEU) | Mindray Medical Poland Sp. z o.o. | 2022 – Jan 2024

- Supported hematology analyzer deployment across 7 countries in the NEEU region, including a strategic installation at Hospital Clinic de Barcelona.
- Certified Mindray Hematology Trainer, delivered technical and clinical training to laboratory professionals and distributor teams across the region.
- Led audits and standardisation of customer service procedures; managed relationships with KOLs and local distributor networks across the NEEU region.
- Gathered market intelligence and customer feedback across 7 countries to inform regional commercial strategy and HQ product roadmap.

Product Manager | P.P.H.U. BOR-POL, Gliwice | Mar 2022 – Sep 2022

- Managed the IVD product portfolio for a Polish diagnostics distributor, responsible for product positioning, promotional activities, and sales support.
- Collaborated with commercial and technical teams to develop go-to-market plans and customer-facing materials.

Clinical Chemistry & Hemostasis Product Manager | Horiba ABX Sp. z o.o. | 2017 – Feb 2022

- **Consistently exceeded annual sales targets, achieving 110%+ in 2016 and 2017, ranking among top performers across the Horiba European network.** 2× TOP Performance Club recipient
- Secured an exclusive HbA1c testing contract with Diagnostyka — the largest laboratory network in Poland — representing a major key account win and long-term revenue stream for the business.
- Drove go-to-market strategy for new product launches across Poland: market analysis, competitive positioning, pricing, promotional campaigns, and sales team enablement.
- Developed and maintained relationships with KOLs in clinical chemistry and hemostasis; represented Horiba at scientific congresses.

Product Specialist – Clinical Chemistry | Horiba ABX Sp. z o.o. | 2014 – 2016

- Provided technical and application support across the clinical chemistry portfolio to customers and sales teams throughout Poland.
- Developed training materials and conducted product demonstrations for laboratory professionals and procurement decision-makers.

Sales Representative | Horiba ABX Sp. z o.o. | 2010 – 2013

- Built and managed a portfolio of clinical laboratory accounts across an assigned territory, consistently meeting and exceeding commercial objectives through direct sales and relationship management.

Laboratory Manager | Diagnostyka Sp. z o.o. | Provincial Gynecology & Obstetrics Hospital | Neuropsychiatric Hospital | 2006 – 2010

- Managed laboratory operations and teams across multiple hospital-based diagnostic facilities in the Opole region, gaining deep understanding of laboratory purchasing decisions and workflow needs.
- Responsible for quality systems, workflow optimisation, staff supervision, and analytical equipment management.

EARLIER CAREER

Medical Representative – Servier Sp. z o.o. (2004–2005) | Assistant – LOMA Medical Laboratories (2005–2006) | Laboratory Manager – Provincial Hospital of Lung Diseases & Tuberculosis (2000–2004)
